Maths Learning Record

The Maths Learning Record is designed to meet statutory requirements for the Mathematics programmes of study at key stage 1 in England.

It provides teachers with an on-going assessment record of attainment and progress information for individual pupils.

Assessed skill areas follow the sequence of learning in the programmes and are highlighted in colour. A simple marking code makes record keeping efficient and easy.

Pupils see themselves progressing which in turn increases motivation. Ideal for teachers, assistants, pupils and parents alike to monitor progress and attainment in a glance.
